ABOUT US

A once small family business, situated in Pietermaritzburg, Kwazulu Natal. Our Values and work ethics have seen us grow into a name you can trust in the steel fabrication industry, throughout South Africa.

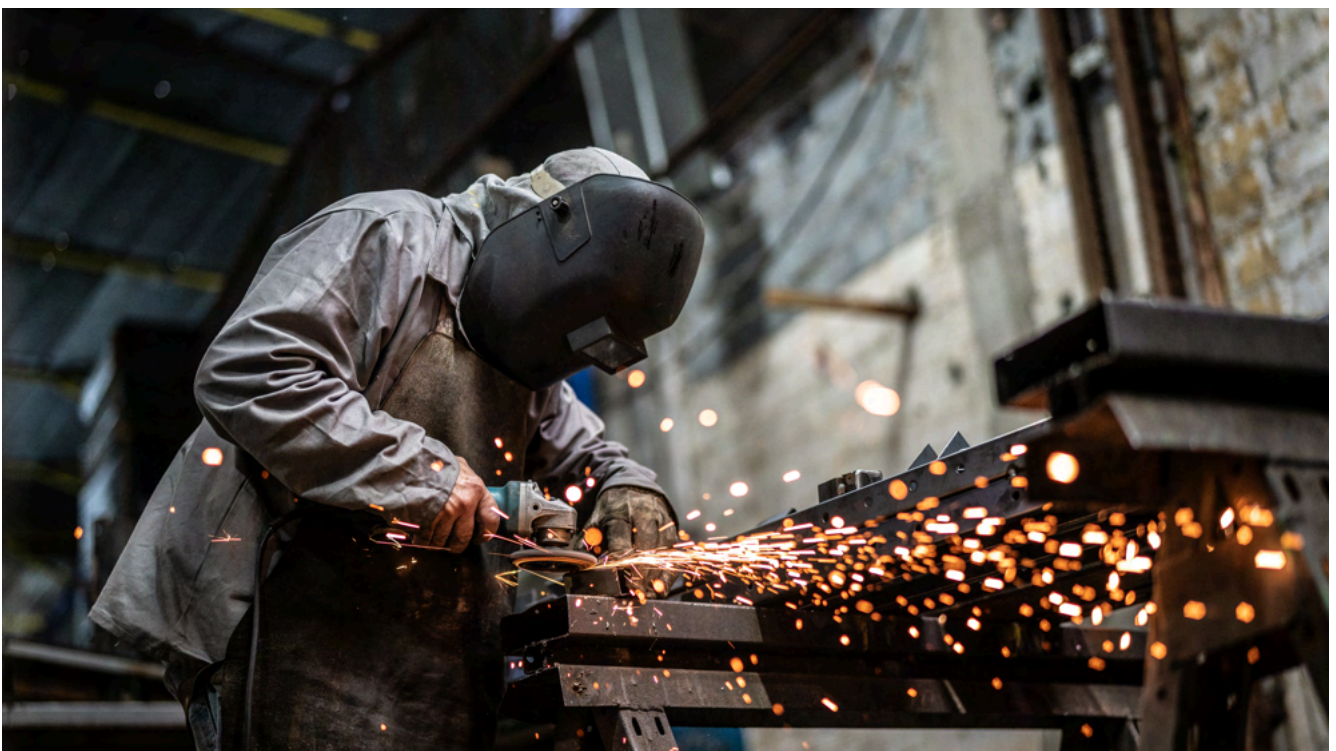

Vanotek stands at the forefront of tailored metal fabrication, engineering and design. Specializing in the production of high-quality metal products for an extensive range of industries and applications.

Our expertise spans across materials from mild steel, stainless steel to aluminium, ensuring versatility and excellence in every project.

Engineering Excellence

As an industry leader in manufacturing and engineering, Vanotek's in-house engineering department is dedicated to delivering the most cost-effective and efficient projects to our clients. Our proactive approach involves active participation in premanufacturing design meetings, enabling us to offer accurate budgeting throughout the project lifecycle. This commitment to early-stage involvement ensures we provide comprehensive turn-key solutions tailored to meet the specific needs of each client.

WHY CHOOSE VANOTEK

Our mission is to offer exceptional, bespoke steel fabrication solutions that surpass client expectations. By integrating our advanced engineering capabilities with state-of-the-art manufacturing processes, we deliver products that exemplify precision, durability, and superior craftsmanship. At Vanotek, we are driven by a commitment to quality, innovation, and customer satisfaction. Partner with us to experience unparalleled expertise in steel fabrication and enjoy the peace of mind that comes with working with industry leaders.

TAILORED FABRICATION

Tailored solutions in mild and stainless steel, as well as aluminium, to meet diverse application needs.

Advanced Engineering

Leading the industry with our manufacturing and engineering delivery method, providing cost-effective and innovative solutions.

Service - Quality
